

# Dust mop

## Disposable dry mop for any surface

### An effective and quick way of removing dust, hair and dirt in general.

Dust mop cloths are delivered in rolls of 25 pcs. The size of each mop is 60 × 20 cm, which fits perfectly to most regular feeders.

Before use, the dust mop is placed on the floor and simply by pressing the feeder onto the mop makes them securely stick together without having to bend down and manually secure the mop. After use the mop is simply disposed of accordingly.

Due to the special perforated material, a single disposable dust mop can be used to clean a very large area in a very short time, therefore removing dust, hair and other dirt much more efficiently than e.g. vacuuming.

### Accessories

Micropad: 42 × 9 cm.

Article No.: 27010

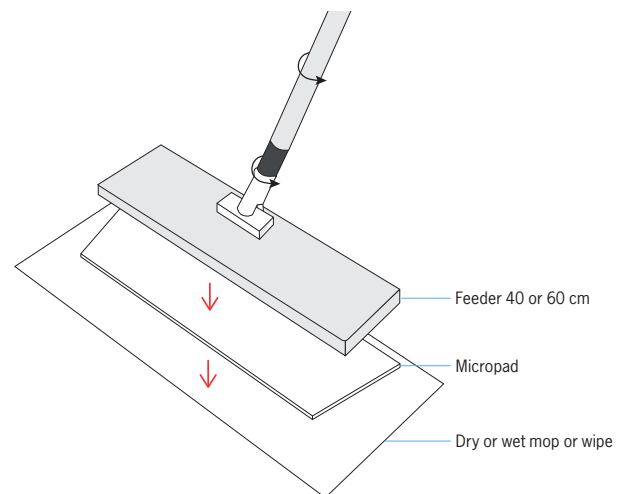

Micro pad allows the mops to be effective also on uneven surfaces.

Article No.: 70573
